

SUBRAYA HEGDE

AI Project Manager | Generative AI Integration | Technical Program Leadership

Bangalore, India | +91 88612 46975 | subrayahegde@gmail.com | linkedin.com/in/subrayahegde

PROFESSIONAL SUMMARY

AI Project Manager with 20+ years of technical delivery experience and active hands-on expertise in Generative AI, AI Integrations, MCP and RAG architectures. Lately built production-grade AI applications — including a SaaS legal contract analyzer and a multi-modal AI explorer — using OpenAI, Gemini, Mistral, LlamaParse OCR, and Google Translation Services. Experienced in chatbot development, LLM integration, Agentic AI, and vector database-powered semantic search. At Infosys, managed portfolios up to \$1M per quarter across complex digital transformation programs for US and UK enterprise clients, consistently achieving 7/7 CSAT and 15-20% QoQ revenue growth. Uniquely positioned to bridge the gap between AI engineering teams and business stakeholders — translating LLM capabilities into scoped, deliverable roadmaps.

CORE COMPETENCIES

AI / LLM: Generative AI | Machine Learning | NLP | LLM Integration & Productionization | RAG Architecture | Agents & Workflows | Chatbot Development | Prompt Engineering | AI Roadmap Planning | AI Risk & Governance

AI Models & Tools: OpenAI / ChatGPT | Gemini AI | Mistral | LangChain | Llama / Ollama | HuggingFace | Groq | Multi-modals | MCP Servers

Data & Search: Vector Databases | Graph Databases | Embedding Generation | Semantic / Similarity Search | PDF Ingestion | RDBMS | NoSql

Frameworks & Dev: Python / Django | Streamlit | Jupyter / Colab | Next.js | n8n / Make | Bubble | REST APIs | Authentication Flows | Payment Gateway Integrations | Docker / Kubernetes | Dotnet | J2EE

AI Dev Tools: Cursor | GitHub Copilot | Gemini CLI | v0.dev | bolt.diy | antigravity

PM Skills: Agile / Scrum | Pre-Sales & RFP Leadership | Stakeholder Management | P&L / Billing | Cross-functional Leadership | Risk Mitigation

Cloud & DevOps: AWS | Azure | CI/CD / DevOps | Jira / Asana | GitHub

PROFESSIONAL EXPERIENCE

AI Product Manager & Generative AI Consultant

Independent Consultant | Bangalore, India | Jan 2025 – Present

Designing, building, and shipping production AI applications end-to-end — managing full project lifecycle from architecture through deployment, user authentication, and subscription billing.

Key AI Deployments:

- **SaaS App:** Legal Contract Risk Analyzer (Live App — ai-contractanalyzer.vercel.app)
 - o Full-stack SaaS application with login authentication (5 providers via Next Auth), subscription billing (Razorpay), and role-based access control
 - o Integrated Gemini AI and Mistral AI for clause extraction and risk scoring; Google Vision API for OCR on scanned contracts
 - o Tech stack: Next.js, TypeScript, PostgreSQL, Prisma, Tailwind CSS, shadcn/ui
- **Multi-modal App:** Python AI Explorer (Live App — sample-ai-apps-using-python.streamlit.app)
 - o Streamlit application enabling experimentation across 6+ AI use cases: medical prescription interpretation (Vision Models), invoice parsing, YouTube video Q&A, story generation, image-based illness detection
 - o Integrated open-source models (Llama, Mistral via Ollama) and commercial APIs (OpenAI, Gemini, Groq); prototyped and iterated using Jupyter / Colab notebooks
- Building and experimenting with Agentic AI, MCP servers, chatbot development, LLM Integration with front-ends, AI agents (n8n / Make), and RAG pipelines using PDF ingestion, NLP-based embedding generation, and semantic similarity search via LangChain and vector / graph databases.

Senior Project Manager

Infosys Ltd. | Bangalore, India | Mar 2012 – Oct 2024

Sr. Pre-Sales Manager — UI & CMS Practice | May 2024 – Oct 2024

- Grew UI/CMS practice revenue approximately 20% for 3 consecutive quarters by leading technically credible RFP and RFI responses for North America enterprise clients.
- Reduced proposal turnaround time by 50% by building a reusable solution repository in partnership with the Value Design team.
- Led oral presentations, technical demos, and solution validation sessions that directly converted to signed contracts; managed a team of 8 Architects, Consultants, and SMEs.

Project Manager / Scrum Master — Finacle Knowledge Center, Edgeverve | Apr 2023 – Apr 2024

Sitecore XP 10.3 migration of 1.1TB SharePoint-based banking knowledge portal to Azure PaaS

- Delivered zero-data-loss migration of 1.1TB of content (manuals, API guides, ERDs, videos) from SharePoint to Sitecore XP 10.3 on Azure PaaS — on time and within budget.
- Increased team productivity by 15% through Agile Scrum practices, developer mentoring, and standardized reusable component libraries.
- Governed \$900K/quarter client portfolio achieving 95% account retention through proactive risk management and executive stakeholder communication.

Scrum Master — Vehicle Inspection System, Assurant (USA) | Oct 2021 – Jan 2023

Cross-platform insurance claims system: Flutter mobile app (iOS/Android) + Node.js backend on AWS

- Reduced release cycle time by 15% through lean delivery practices, peer review standardization, and sprint retrospection-driven improvements.
- Resolved top 3 recurring crash defects, measurably improving app stability and reducing post-release support overhead.
- Managed \$600K/quarter delivery pipeline; hired 50+ lateral engineers at 25% conversion rate to scale the delivery unit.

Digital Project Manager — MembersWorld App, Bupa Global (UK) | Jan 2020 – Aug 2021

Flagship cross-platform Xamarin healthcare app: claims, pre-authorization, telemedicine, Global Virtual Care

- Increased user engagement by 20% and achieved a 4.3-star app store rating by driving UX-aligned releases on a high-visibility consumer health app.
- Achieved perfect CSAT (7/7) for four consecutive quarters, sustained through peak COVID-era digital demand.
- Cut post-deployment defects by 30% by embedding automated testing workflows into the CI/CD pipeline.
- Upskilled 70+ team members in React, Flutter, and modern UI frameworks, reducing bench time and increasing team capability.

Project Manager — NGIS Web Modernization, Northwestern Mutual (USA) | Apr 2015 – Nov 2019

- Delivered multiple web modernization initiatives using React and Angular; improved delivery efficiency by 15% through reusable UI component libraries.
- Generated \$500K in incremental follow-on contracts through consistent delivery quality and proactive stakeholder engagement.
- Established front-end governance standards including TDD, coding guidelines, and best practices adopted across the delivery unit.

Project Manager — VOC Platform, Harley-Davidson (USA) | Apr 2012 – Jan 2015

- Launched 4 functional VOC modules on time and onboarded 100+ users through targeted enablement, accelerating time-to-adoption.

EARLIER CAREER

Project Manager — Tech Mahindra Ltd., Pune (Apr 2005 – Dec 2009) | Best Team Award 2009

Project Lead — Cyient (Infotech Enterprises), Hyderabad (Feb 2002 – Feb 2005) | Employee of Month Apr 2004
Programmer Analyst — Concio Inc., California, USA (Jan 2000 – Oct 2001)

EDUCATION & CERTIFICATIONS

B.E. Electronics & Communications — BVB College of Engineering, Hubli, Karnataka

Certifications: ITIL Foundation Certified | Brainbench Certified ASP Developer

Awards: Inspire (Pride) Award — Infosys (Sep 2015) | Best Team Award — Tech Mahindra (Jun 2009) | Employee of Month — Infotech Enterprises (Apr 2004)
