

Subraya Hegde

Senior Manager – Technical & Management

Bangalore, India | (+91) 88612 46975 | subrayahegde@gmail.com

<https://www.linkedin.com/in/subrayahegde> | <https://subrayahegde.github.io>

Results-driven Senior Software Professional with over 18 years of experience delivering complex projects across Banking, Healthcare, Insurance, and Retail industries. Skilled in leading cross-functional teams and managing portfolios up to \$1m per quarter, I've consistently achieved a 7/7 CSAT score, driven 15-20% QoQ revenue growth, and boosted productivity by 15% through process optimization and reusable assets. Proficient in Agile Scrum, stakeholder management, and risk mitigation, I bring expertise in web development using latest tools/technologies and AI integrations (e.g., LLM, Chabot, RAG, MCP), supported by strong strategic planning, Pre-sales leadership, and client relationship-building skills.

Professional Experience

Independent Consultant (Gen AI), Bangalore, India

(01/25 to date)

Currently learning AI and exploring various LLM models:

- Getting trained on AI, Gen AI and ML. Planning to take the certification shortly
- Exploring various AI models and AI tools
- Practicing AI integrations with web apps, working on Chatbots, RAG, MCP, etc.

Implemented the below apps (to showcase some of the latest AI models):

1. Legal Contract Risk Analysis: The app reads the uploaded contract document and list all potential risks, liabilities, or unfavorable terms for the party receiving the contract. (tech stack: next.js, postgres, prisma, Razorpay, typescript, tailwind/shadcn CSS, Gemini AI, Google Translation/vision API, Mistral AI, nextauth with 5 types of provider authentication).

Here's the link to the app: <https://contract-analyzer-coral.vercel.app>

2. Python based app (tech stack: python with streamlit) to explore various AI Models and their capabilities (ex. Contract Risk Analyzer, Reads handwritten medical prescription, suggests the illness by scanning the uploaded image, invoice parser, story teller, youtube summary and q&a, etc.)

Hers' the link to the app: <https://sample-ai-apps-using-python.streamlit.app>

AI Skill sets: Python Programming, Django, Notebook/ipynb, Google Colab, AI (Machine Learning, NLP, Gen AI, LLM, etc), Website Integrations with AI Models (ex. Llama-Groq, OpenAI Chatgpt, etc.), Vibe Coding - Usage of AI tools (ex. copilot, cursor, gemini cli, V0-dev, bolt.diy, etc.) for coding and regular work using MS office suite of products, RAG - Q&A on PDF and PDF Summary (using LLama and Mistral AI models), Working knowledge of MCP servers, Vector Databases, etc. Worked on AI integration tools like Langchain, Groq, Huggingface, etc. Ollama (for Offline open-source models), Built sample Chatbots and Integrated them with front-end JS frameworks, Basic experience building AI Agents - using workflow automation tools like n8n, Make & Bubble.

Worked as a Sr. Project Manager at Infosys Ltd, Bangalore, India

(03/2012 to 10/2024)

a) Sr. Pre-sales Manager (UI & CMS Practice)

05/2024 – 10/2024

Description: Led a team of 8 (Consultants, Architects and Leads/SMEs) to provide responses to various proposals under UI/CMS practice for North America region.

Responsibilities/Achievements:

- Accelerated business (in UI/CMS practices) growth by ~20% for 3 consecutive quarters through value-driven proposal leadership and innovative solutioning.

- Architected winning proposal strategies (RFP/RFI/PoVs) by translating complex client requirements into technically sound, cost-optimized solutions aligned with existing landscapes.
- Enabled Sales to close high-value opportunities by leading orals, demos, and technical validations, ensuring solution confidence and revenue conversion.
- Operationalized a reusable solution repository with the Value Design team, achieving 50% faster proposal turnaround and major productivity gains.
- Enhanced competitive positioning by continuously benchmarking Infosys' offerings against market competitors and tailoring narratives accordingly.
- Cultivated deep client and sales partnerships, strengthening long-term engagement and trust with customers.

b) Project Manager / Scrum Master (FKC, Edgeverve, India)

04/2023 - 04/2024

Description: Finacle Knowledge Center (FKC) is SharePoint based portal, wherein all Finacle banking products (multiple products with multiple versions) can be published. The current system comprises of 1.1 TB of data consisting of Manuals, Release Notes, API guides, Data Dictionary, ERD and Videos. The scope is to – Implement the same functionality for both intranet (Finacle) and internet (Banks) users in Sitecore XP 10.3, Migrate the SP content to Sitecore and host the solution on Azure PaaS.

Responsibilities/Achievements:

- Directed end-to-end transformation of FKC (1.1TB+ content) to Sitecore XP 10.3 on Azure PaaS, ensuring on-time migration and zero data loss.
- Elevated team productivity by 15% by embedding Agile Scrum principles, mentoring junior developers, and standardizing reusable component libraries.
- Delivered business-aligned milestones through strong cross-functional collaboration (ISG, UX, and product teams), ensuring stakeholder buy-in and measurable progress.
- Governed a \$900K/quarter client portfolio, strengthening account retention (95%) via proactive delivery assurance, stakeholder management, and risk mitigation.

Technologies Involved: Sitecore XP 10.3, jquery, JavaScript, html/css, RWD, C#, Visual Studio.Net, Azure PaaS

c) Scrum Master (VI Backend & Mobile App, Assurant, USA)

10/2021 – 01/2023

Description: It's a Vehicle Inspection (VI) system to check and process the accident claims. The system consists of Node.js based backend (for Admin to create/modify/view inspections, shops management, TPA Integrations, reports) and a Flutter based Android/iOS mobile app for the insured users.

Responsibilities/Achievements:

- Drove end-to-end Agile delivery for a cross-platform vehicle inspection system (Flutter & Node.js), improving app stability and reducing crash frequency by addressing top 3 recurring defects.
- Reduced release timelines by 15% through the adoption of lean delivery practices, rigorous peer reviews, and sprint retrospection improvements.
- Improved transparency and stakeholder satisfaction by leading sprint demos, backlog refinement, and delivery showcases with client partners.
- Scaled the delivery unit's talent base by leading recruitment initiatives—hired 50+ laterals with a 25% success rate—to support growing client demand.
- Maintained a \$600K/quarter delivery pipeline, balancing multiple digital engagements across design, build, and support phases.

Technologies Involved: Flutter, Node.js, JavaScript, Visual Studio Code, AWS, GitHub, Jira

d) Digital Project Manager (MembersWorld, Bupa Global, UK)

01/2020 - 08/2021

Description: This is a cross-platform Mobile app (Xamarin based) to manage details of individual's healthcare plan, get pre-authorization request for treatments, submit/track/view claims, apply for a second medical opinion, GVC (Global Virtual Care) - access to 24-hour live webchat service, Facility Finders, etc.

Responsibilities/Achievements:

- Delivered Bupa's flagship MembersWorld app (Xamarin), increasing user engagement by 20% and securing a 4.3-star app rating across stores.
- Streamlined release velocity by embedding automated testing workflows, cutting post-deployment defects by 30%.
- Strengthened stakeholder alignment by partnering with the Product Owner to shape prioritized roadmaps and agile delivery cadences.
- Achieved perfect CSAT (7/7) for four consecutive quarters, reflecting client trust and operational excellence.
- Enabled digital capability uplift by mentoring 70+ team members toward certifications in React, Flutter, and modern UI frameworks within a single year.

Technologies Involved: Microsoft.Net, Xamarin, C#, Visual Studio.Net. Azure Devops, GitHub

e) Project Manager (NGIS, Northwestern Mutual, USA)

04/2015 - 11/2019

Responsibilities/Achievements:

- Delivered multiple web modernization projects for the client by applying scalable UI frameworks (React, Angular), ensuring maintainability and performance gains.
- Boosted delivery efficiency by 15% through reusable UI component libraries and front-end best practice frameworks.
- Secured additional \$500K in follow-on work by driving client confidence via consistent delivery quality and proactive stakeholder engagement.
- Institutionalized front-end governance standards (coding guidelines, TDD, best practices), enhancing code reliability.

Technologies Involved: Node.js, npm, react.js, redux, Jasmine, vs code, javascript, responsive web design (RWD), TDD, github, postman

f) Project Manager – VOC, Harley Davidson, USA

05/2012 - 01/2015

- Led the roll-out of VOC for the client, successfully launching four functional modules that streamlined L1/L2 operations.
- On-boarded 100+ users through targeted enablement programs, accelerating adoption and operational readiness.
- Established foundational governance for VOC product evolution, aligning delivery teams and client stakeholders during the product evangelization phase.

Technologies Involved: SharePoint, ASP.Net, C#, javascript, html/css

Previous Employments

- Project Manager, Tech Mahindra Ltd. Pune, India (04/2005 to 12/2009)
- Project Lead, Cyient (Infotech Enterprises), Hyderabad, India (02/2002 to 02/2005)
- Programmer Analyst, Concio Inc, CA, USA (01/2000 to 10/2001)

Tools and Technical Skills

- MS Project, MS Office, Jira, Azure Devops, Visio, Windows, Linux, Ubuntu
- Microsoft.Net, C# and VB.Net, dotnet core, WebAPI, ASPNET mvc, core java/j2ee, Springboot, oracle, sql server, NoSQL (MongoDB), Full-stack, Eclipse, vss/tfs, apache + mysql + php, wordpress, sitecore, headless CMS (Sanity, Contentful, etc.), search solutions, unix/bash Shell, soap/xml, json, ajax, jquery, javascript, ES6, node.js + express, react.js/next.js, vue.js, angular,

typescript, restful api, graphql, android, nunit, eslint, jasmine, docker + microservices, messaging & queue systems, devops (CI/CD), fundamentals of AWS and Azure cloud,

- Domain knowledge: Banking & Financial Services, Insurance, Healthcare, Retail, Education

Education, Trainings and Awards

- BE (Electronics & Communications) – BVB College of Engineering, Hubli, Karnataka
- ITIL Foundation Course and Brainbench ASP Certified
- Inspire (Pride) award - Infosys Ltd. (09/2015)
- Best Team award - Tech Mahindra Ltd (06/2009)
- Employee of the Month award - Infotech Enterprises Ltd. (04/2004)
